

FAIR Convergence Symposium: Data privacy

Protecting your privacy before, during and after the FAIR Convergence Symposium is important to us. Below you can find information about personal data collected and processed. We process personal data in compliance with EU law (GDPR) and all other legal regulations that may apply.

Cooperation

The Symposium is organised by CODATA and the GO FAIR International Support and Coordination Office (herewith called GFISCO) who selected Cvent to provide the services of an online conference platform. An agreement with Cvent (detailing data processing by the organisations) has been signed by MESRI on behalf of the Symposium organisers. CODATA and the GFISCO are joint controllers in terms of the GDPR.

Registration details for this event and your personal data are stored on the servers of Cvent. Please take note of the data protection notice of the provider:

<https://www.cvent.com/en/cvent-global-privacy-policy>.

Registration for the event

When you register for this event in Cvent, the following data will be stored for the logistical and administrative transaction of this event, for inquiries, and for communication on the Cvent conferencing platform.

Necessary data:

- Username
- Full name
- Affiliation / organisation
- Email
- Registration details (booked sessions)
- Optional data:
 - Further optional information, such as phone number, Data Together membership, or comments shared during the registration process
 - Chat messages posted to the event chat platform

Personal data

The personal data will be used only for the purpose of organizing the event and will be deleted as soon as they are no longer needed for the follow-up of the conference.

The conference will be recorded for the purpose of documentation and communication. Live-streamed sessions and panel discussions will be recorded, but only speakers and panellists will be recorded. Participants will be able to ask questions using the chat function. All other sessions including the poster presentations will be recorded, and participants will be seen and heard in these recordings unless they switch off their camera and audio. The organisers are planning to publish the recordings on Vimeo and reserve sharing them on their respective websites and social media accounts. Anyone interested in the symposium

can join, but should be aware that s/he may be recorded if the camera and audio settings are activated.

Emails

If you provide us with your email address it will be used by the Symposium organisers to only correspond with you in relation to your participation in the event.

Your rights

You have the right to demand cost-free access to all personal data held about you. You also have the right to demand that your personal data has to be corrected, blocked or deleted.

You can revoke your consent to the processing of personal data at any time, taking effect from the time of revocation.
